President's Report

Hello All

What a wonderful time we are having locked like chickens in the coop but look on the BRIGHT SIDE OF LIFE as Monty Python said in the "Life of Brian" film song. We are all looking for the light at the end of the tunnel and it is coming where we will be all allowed out again. Hope Victoria doesn't let us out all at once won't that be big.

Hopefully everyone has been getting all the chores done around the house and the Car and Caravan repairs or modifications etc. Well I have mainly been working on the truck and working at work with the farmers' cropping program.

Future meetings are still up in the air but don't worry soon as we know that there is an opportunity to go we discuss it and we will be off. I wonder if we don't get together soon we might have to do what everyone else is doing. That is a virtual gathering on line; how will happy hour go? Not much else to say so we will catch up soon hopefully.

Hopefully everyone has kept away from the COVID-19. Glad and I have been well with no health issues.

Your Pres - Dave E.

Editor's Report- I have sent this newsletter even though we are not meeting so members know what is going on and that, as soon as we can, we will get back into Club meetings. We were very lucky to have got our last meeting in at Stawell as while we were there the panic buying had started. It was interesting that in the time Elaine and I had actually travelled for a total of 2 weeks from when we started out for Stawell the world turned to poo. Because we had a family wedding in Shepparton the week after the Stawell meeting we decided to wander across Victoria free camping and relaxing before booking into the caravan park at Shep. It was amazing going into a supermarkets/shops and seeing bare shelves. I really don't understand the mentality of some people. Then of course the other social restrictions started to come in, although at that stage you could still travel. After the wedding instead of taking our time heading home as we intended to I made a point of keeping my fuel tank full and headed straight home in case they closed all travel down which eventually they did. Fred.
